

SENSI WEEKLY UPDATE

Dear Sensi Community,

Welcome to Edition Forty Nine of the Sensi Weekly Update series. We hope everyone has had a great week! As usual, included in this week's SWU are the typical features. Data captures, community recognition statistics, leaderboards, development update tidbits, etc.

Without further adieu...

DEVELOPMENT UPDATES

SMARTYIELD

Overall in SmartYield-land, this week's progress and work has been slowed a bit whilst some team members take a very well deserved break/vacation :)

We will be back in full speed soon -- maybe with a few shiny screenshots in the meantime to hold you all over!

SY ALPHA

A tricky little bug in PCS' logic has been a bit of a pain this week. We are in contact with PCS to have this resolved promptly -- In the meantime, the testing team is still enjoying breaking things!

GENERAL

Aside from SmartYield and the SmartYield Alpha, we have been placing some additional work on the NFT-front. Coincidentally, we have been monitoring the NFT-related discussion this week in the Telegram chat and will be sharing our viewpoints there as well post-SWU tonight. Keep an eye out!

SEE YOU NEXT WEEK!

This concludes Edition Forty Nine of the Sensi Weekly Update. We hope that this update has found you well, and we look forward to seeing you again next week! We wish you all a great rest of your week :)
