

# SENSI WEEKLY UPDATE

## Dear Sensi Community,

Welcome to Edition Fifty Two of the Sensi Weekly Update series. We hope everyone has had a great week! As usual, included in this week's SWU are the typical features. Data captures, community recognition statistics, leaderboards, development update tidbits, etc. **We are proud to be celebrating one year of SWUs today!!**

Without further adieu...

#### K\_Sensi\_Fan!

Third Place | 2-Week Streak

### TEAM

#### Timmey

First Place | 36-Week Streak

#### Pedrovski

Second Place | 18-Week Streak

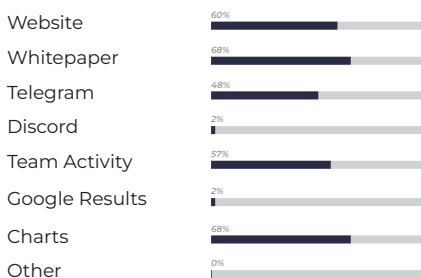

#### Slava

Third Place | 46-Week Streak

## WEEKLY POLL

08.28 - 09.04

What do you check first on a project before you invest? (Multiple Answers Allowed)

## DEVELOPMENT UPDATES

### SMARTYIELD

This week, the Sensi Development Team worked on squashing bugs that came about in Testing Round 5 with the Alpha testing team. Various improvements to withdrawal functions and visuals, NFT functions, rebalancers, and a few MP updates were the main boxes to check on this week's list.

### SY ALPHA

Initial testing of Round 5 in the Alpha group is off to a great start, with one week of rigorous testing in the books. We have collectively decided to expand the testing group again further, with the addition of two long time members of the community; Lev and Marcus :)

### GENERAL

Overall, most of this week's work as usual has gone into SY improvements, and back & forth fixes for any inconsistencies found by the Alpha testing group. A few non-SmartYield changes have been made, such as new numerical imagery backgrounds for each SWU post in the news section on our website. We also have gathered some plans to incorporate improved graphical thumbnail backgrounds for important newsletters on our website.

## SEE YOU NEXT WEEK!

This concludes Edition Fifty Two of the Sensi Weekly Update. We hope that this update has found you well, and we look forward to seeing you again next week! We wish you all a great rest of your week :)

- The Sensi Team
